GRADUATE SCHOOL OF SUSTAINABLE DEVELOPMENT

REINVENTING JAKARTA AS AN EQUITABLE GLOBAL CITY

SUPPORTING JAKARTA'S TRANSFORMATION TOWARDS A TOP GLOBAL CITY

J. Ramadhan, Ph.D · Irene S. Fitrinitia, Ph.D · Deftrianov, M.Sc. · Mushlih Muharrik, M.Eng.

Graduate School of Sustainable Development – Universitas Indonesia

Background

Following the relocation of Indonesia's capital, Jakarta is redefining its role as a National Economic Center and Global City. The Provincial Government of Jakarta, through BAPPEDA, collaborates with Universitas Indonesia to strengthen sustainable creative economy development as a key growth driver.

Research Objectives

- Support Jakarta's transformation as a Global City
- Empower MSMEs & Creative Economy
- Strengthen cultural branding & night-time economy
- Create global icons & public spaces
- Build young urban planner research capacity
- Enable knowledge transfer with global partners

Research Focus

- Urban Policies and Infrastructure for the Creative Economy;
- Creative Workforce Development;
- Cultural Tourism and Global City Branding;
- Creative Class and Urban Social Dynamics.

Stakeholders

- 2 Decision-makers
- 6 Young Researchers
- 5 Young Mentors
- 4 Supervisors
- 1 Research Manager
- 14 Professors
- 10 Administrative and Technical Staffs
- 11 Partner and Official Institutions

Challenges

- Budget efficiency constraints
- Cultural differences in academic-bureaucratic processes
- Need for sustained political commitment
- Risk of policy papers not being implemented

Impactful Research

Conclusion

The project demonstrates double efficiency-effective planning and impactful dissemination. Implementation of policy recommendations is projected for 2026-2027, reinforcing Jakarta's journey toward becoming a top-tier global city through equitable and excellent research.

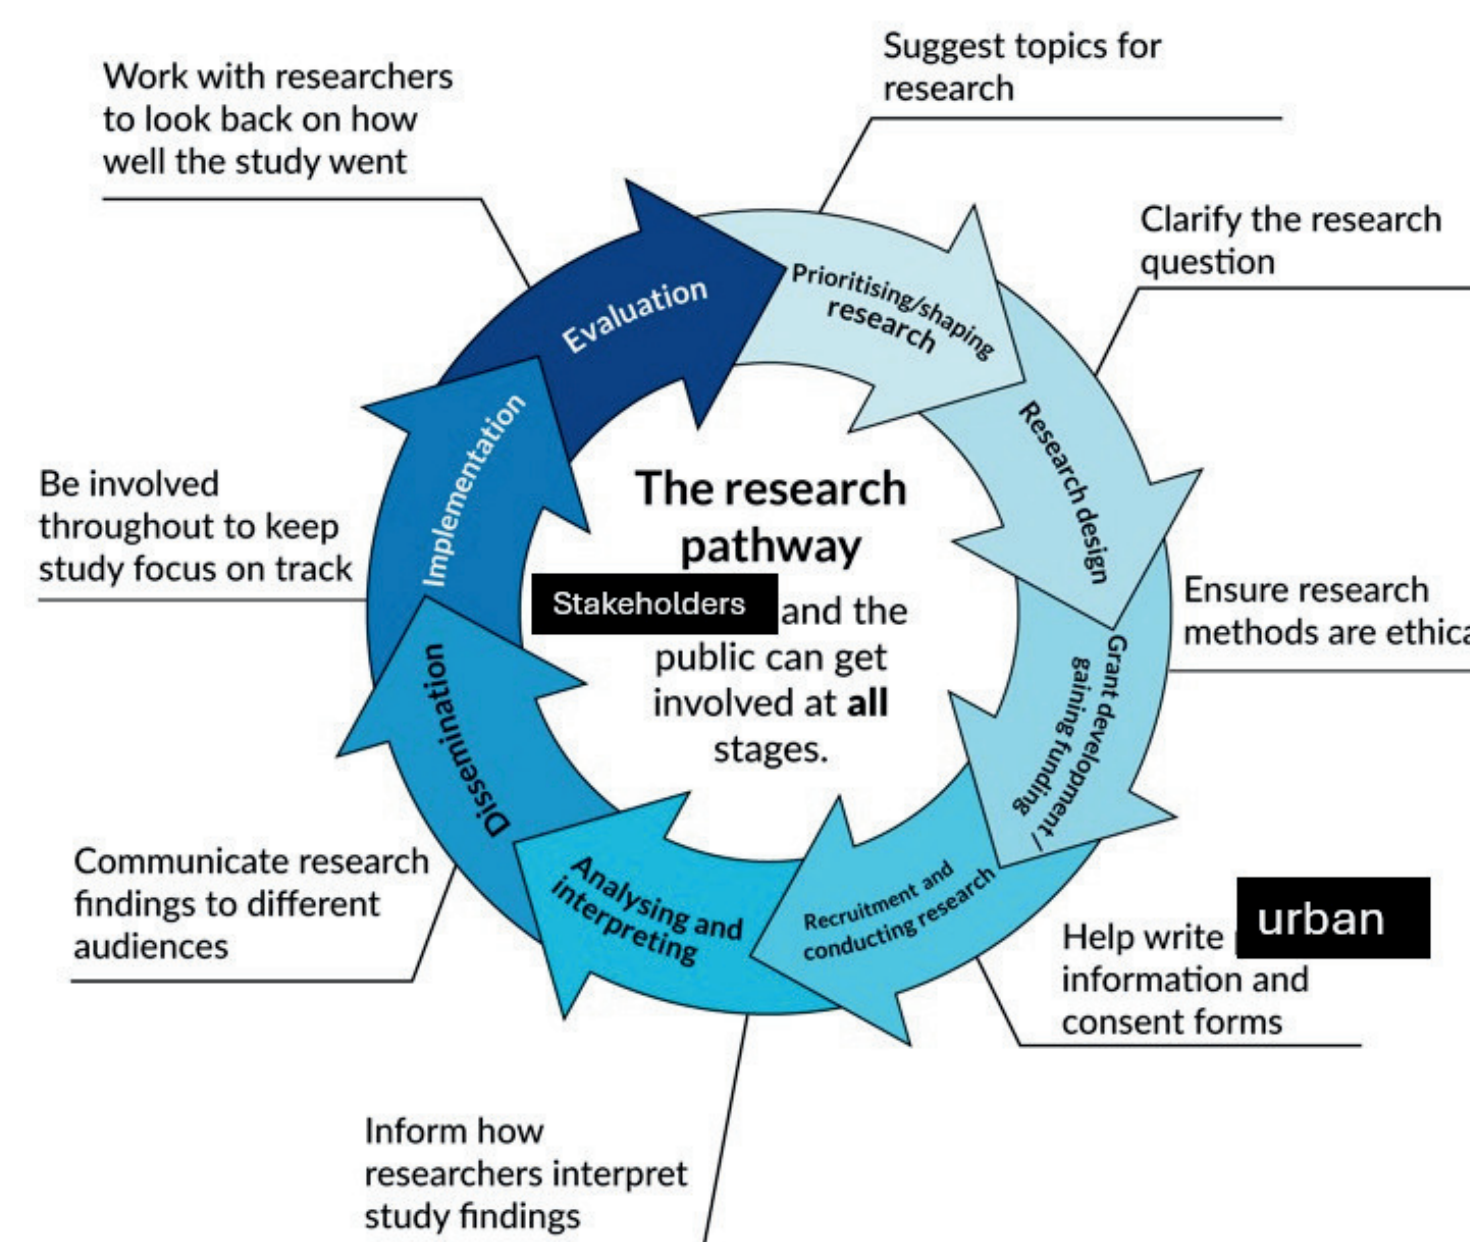

With population approximately 11 million inhabitants (Jakarta Municipality, 2025) and with its agglomeration around 42 million people (UN, 2025) are having activities in Jakarta, the research will impact around 10 % of population and influence the indicator achievement of Global City Index (Kearney, 2025)

Equitable Partnership Principles

Research Life Cycle

Jakarta in Numbers

Population (Agglomeration): ±42 million (UN, 2025)

Core Population: ±11 million

GRDP per Capita: > IDR 290 million

FDI Value: USD 4.83 billion (20,000+ projects)
